NUMBER 7

ANTIOCH WILL OBSERVE FIRE PREVENTION WEEK

Plan Inspections to Cut Township's \$6,000 Fire Loss

Antioch community, under the direction of the local Volunteer Fire department, next week will observe "Fire Prevention Week," October 3 to 9, the time set by presidential proclamation and also by proclamation of Governor Horner to remind citizens everywhere that more than half of all fires are preventable.

Making this community safe from the ravages of destructive fire is left largely in the hands of the local fire department, who next week will make inspections of all business and public property, including the schools where fire drills will be staged to determine the time required to evacuate the buildings.

Fires Preventable

James Stearns, veteran chief of the local firemen, points out that fire prevention is the important business of conserving life and property from the unnecessary ravages of fire which can be kept largely under control, or actually prevented, by reasonable diligence. The chief also advises that all citizens can help the cause of fire prevention by getting rid of accumulated trash, and old papers stacked away in basements and attics. A clean building seldom burns.

Firemen, who have had opportunity to observe many destructive flames, declare that one of the major fire causes is improper electric wiring and the use of defective electrical equipment. It is advised that heating appliances be gone over before the start of cold weather, and that chimneys, stoves and furnaces be examined before a fire is started.

Township Loss \$6,135.00

The total loss from fire in this fire district for the fiscal year, October to October, was \$6,135.00, according to figures supplied the News today by Secretary Clarence Shultis of the Antioch department. The fire loss in the village limits amounted to only \$545, while the rural losses totalled \$5,600.00. A large part of the losses were covered by insurance, of course. Losses in the rural areas are always heavier due to the fact that seldom is there sufficient water supply to enable firemen to do effective work. It was for this reason that directors of the First Fire District purchased recently a 1,000 gallon tank truck, which the firemen take with them to fires where there is an inadequate water supply.

Plan Fire Drills

Some time during the week fire drills will be staged at both the grade school and the high school under observation of the firemen. Local firemen and school officials, mindful of the Texas school disaster of last year, will use extra care in determining and removing fire hazards in both buildings.

Inspection of business premises in the village will be made next Wednesday by Firemen Herman Rosing and Richard Allner, appointed by Chief Stearns as inspectors. Property owners and tenants are urged to have their premises spick and span by that time.

Antioch Juniors to Stage Class Play October 28 - 29

The Junior class of the Antioch Township High school will present "Who Wouldn't Be Crazy," a farce comedy in three acts by Katherine Kavanaugh, October 28 and 29, in the high school auditorium. As usual a different cast will present the play each night.

The setting for the play is quite different from those of other years. It is laid in the courtyard of the Good Samaritan sanitarium, a private home for mild mental cases.

Quarantine for Scarlet Fever Cases in Antioch

A scarlet fever quarantine was taken up at the Lester Nelson home on Spafford street Friday when it was reported by Dr. W. W. Warriner that the two Nelson children, Jane, 8, and Charles, 3 years old were suffering from the disease.

Health authorities today stated that the cases were isolated and that there was no indication that the disease would become prevalent in the community.

Antioch Poultry Team to Judge at State Meet

Members of the Antioch 4-H Poultry Judging team are leaving for Urbana, Illinois, Friday evening to compete with other county champions for state honors.

Norman Edwards, Henry Quendenfeld and Virgil Horton are the team mates and they are coached by C. L. Kuitl, instructor of vocational agriculture at the Antioch High school. Mr. Kuitl will accompany the boys to Urbana.

NATIONALLY KNOWN SPEAKER TO ADDRESS ANTIOCH CLUB WOMEN

Miss Jeanette Kling Speaker at Year's First Meeting October 4

Miss Jeanette Kling, of Chicago, nationally known lecturer of the artists service of the National Broadcasting company, will be the speaker at the year's first meeting of the Antioch Woman's Club to be held Monday, October 4, at the Antioch Hotel.

Miss Kling's subject will be "Personalities That Win." The speaker has made an intensive study of personalities and has lectured throughout the country. She has acquired the method of carrying to others the results of her research.

The luncheon will be at 1:15 o'clock and reservations should be made with Mrs. Thomas Hunt not later than Saturday noon, Oct. 2.

Mrs. Edmund Vos President of the club for this year is Mrs. Edmund Vos. Other officers elected at the annual meeting last May are: Mrs. W. W. Warriner, vice president; Mrs. Roy Kufalk, recording secretary; Mrs. George Anzinger, corresponding secretary; Mrs. Frank Powles, treasurer.

Chairmen of standing committees are: Program—Mrs. M. M. Miller; Citizenship—Mrs. P. E. Chinn; Membership—Mrs. E. Brook; Social—Mrs. O. Mathews; Literature—Mrs. T. Hunt; Music—Mrs. L. White; Art—Mrs. W. H. Osmond; Education—Mrs. B. R. Burke; Public Welfare—Mrs. G. R. Bicknell.

Meetings are held twice each month from October to May.

FILES PETITION TO SUSPEND BUS SERVICE

The American Coach company has announced the filing of a petition with the Illinois Commerce Commission asking permission to discontinue bus service between the lake region and Waukegan until next May 22.

During the past summer the company has operated two routes passing through 14 stations in the western part of Lake county and both having Waukegan as the main terminal. Route 1 extends west to Channel Lake, while Route 2 connects Fox Lake and intervening stations with the county seat.

Operation of the coach lines since Labor day is believed to have proved unprofitable, which has prompted the company to ask permission of the Commerce Commission to suspend the service during the winter months, and still retain the franchise which was granted by the commission last June. The time and place of the hearing upon the coach company's petition will be announced by the secretary of the Commerce Commission from Springfield.

Milk Groups Join State Organization

Last week, two of the largest milk producers' bargaining and marketing organizations, Pure Milk Association of Chicago and Sanitary Milk Producers of St. Louis, signed membership agreements with the Illinois Producers' Association, according to the Illinois Agricultural Association.

"These contracts increased the membership of the IMPA to 21 organizations representing more than 35,000 fluid milk producers," Wilfred Shaw, director of the IAA milk marketing department, declared.

"Prime purpose of the Illinois Milk Producers Association is to aid dairymen in getting a fair share of the consumer's milk dollar. It was created to help all milk marketing co-operatives in the state in problems of organization, marketing, legislation and information," Shaw said.

PLAN PROGRAM FOR PARENT-TEACHER FORUM

Committee Sets Oct. 15 for First Meeting of High School Group

A tentative program for the year for the Antioch High School Parent-Teacher Forum was planned at a meeting of the Executive Council held Tuesday night at the home of Mrs. Gertrude Perry, president of the association.

The initial meeting for this year was set for October 15, and was designated as a "get-acquainted" meeting for teachers, parents and friends of the high school. A special program by the high school students will be planned for this meeting, the committee announced.

Five Vice Presidents. Serving with Mrs. Perry, the president, are five vice presidents representing the various districts. They are: Mrs. Ben Burke (District 1—Village of Antioch).

Mrs. Bert Doolittle (District 2—Lake Villa and the territory South). Rev. E. Kistler (District 3—Wisconsin).

Mr. A. Pierstorff (District 4—East of Highway 54, exclusive of all mentioned districts).

Mrs. Eleanor Micheli (District 5—West of Highway 54, exclusive of all above mentioned districts).

Treasurer: Dr. R. D. Williams. Secretary: H. H. Riechers.

Mr. L. O. Bright has been appointed Chairman of the Program Committee and Mrs. H. B. Gaston is in charge of Publicity. Other committee chairmen are still to be appointed.

The vice presidents serve on the executive council as representatives of the various districts.

The membership fee in the Forum is 25 cents per year. The purpose of the organization is to enable the home and the school through co-operation to give the best service possible to high school students.

LAKE COUNTY BACKS PIERCE FOR JUDGE

William L. Pierce of Belvidere is certain of the Republican nomination for circuit judge, following the action of the Lake county caucus Thursday night at Hotel Waukegan, when instructions for Pierce were voted unanimously by county committee members. The 58 Lake county delegates to the district convention in Woodstock on Oct. 9, were selected by the county central committee and were instructed to cast their ballots for the Belvidere attorney.

Instruction of the Lake county delegation to vote for Pierce was anticipated since there has been no other avowed candidate.

No Other Candidate. Chairman Benjamin H. Miller, who will head the Lake county delegates, told the precinct committee that since McHenry county did not offer a candidate there was nothing to keep them from instructing the delegation.

"We remained neutral, along with Winnebago county, in the selection of candidates," Chairman Miller said, "because Lake and Winnebago counties have resident judges. We left the choice entirely to Boone and McHenry counties. Now that McHenry has an unopposed delegation without a candidate we shall not hurt the feelings of the McHenry people if we instruct our delegation."

Democrats Promise Fight. Meanwhile, Democratic leaders of the Seventeenth Judicial District declare that the Republican nominee will find stiff opposition at the polls on Dec. 7, the date of the special election when a judge is to be elected to fill the vacancy created by the death of the late Edward D. Shurtleff.

The Democratic choice seems to be George R. Lyon, of Waukegan, who has been a precinct committeeman, and who is now attorney for a bank receiver. The Democratic chiefs are counting on the power of the "ay-yoller" vote and Republican indifference in this off year, to make the judicial election close.

Boys Have Picnic, Camp Fire Council

Boys of the Antioch High school enjoyed a picnic and camp fire session at the school park last night from 7 to 9 o'clock. Coach Childers and H. H. Riechers were in charge of the games and the council around the camp fire.

The girls of the school will have a similar outing within the next few days.

THE CITY SLICKER

MOTOR CLUB SEEKS LAW TO STOP GAS SALES TO DRUNKS

Promise of aid from gasoline stations and garages came today to the Chicago Motor club as an aftermath of its blast against drunken drivers. Saturday, through its president, Charles M. Hayes, the club launched a campaign to take drunken drivers from behind wheels of automobiles by seeking to have legislation enacted prohibiting the sales of gasoline to drivers showing signs of intoxication.

Prior to the enactment of suitable laws and ordinances, the club early this week will send requests to its official service stations in Illinois and Indiana asking help in the campaign, and at the same time it will call a meeting of gasoline companies for the purpose of urging all gas stations to cooperate. Pledge cards are being printed, and placards notifying the public that the gasoline stations involved will refuse to sell fuel to drivers showing signs of intoxication are being prepared.

The club president has directed Joseph H. Braun, general counsel of the organization, to prepare a bill for introduction in the legislature making it unlawful to sell gasoline to drunken drivers, while for Chicago an ordinance is being drafted which will be presented by Ald. John A. Massen (48), chairman of the committee on traffic. After conference with William J. McAleer, Hammond, Indiana, attorney, Mr. Braun declared that similar regulations would be sought in Indiana.

Mr. Hayes, commenting on the campaign, asserted:

"Laws against drunken driving are useful, but in some degree they lock the barn door after the horse has been stolen. Most of us have seen drivers who were visibly intoxicated driving into filling stations to replenish their gasoline supply. These drivers go out on the highways a menace to every one on the road, but unless they are involved in an accident or are halted by police, the laws against drunken driving can not be invoked."

Similar campaigns are now under way in Washington, D. C., and in Cleveland, according to club officials.

Antioch Lions Are Invited to Kenosha

The Antioch Lions club has received an invitation to attend the Charter night dinner-dance of the Kenosha Lions club to be held at the Elks Club on October 6. Many Antioch members are planning to attend.

The trouble with the school of experience is that when you are old enough to graduate you are too old to benefit by the education you have received.

A New Dealer is a fellow who believes in letting the government make hay for him while the sun shines.

Scratch a man who won't buy anything unless he sees where the money is coming from, and you'll find a Tory.

S. E. Pollock was called to Shirland, Illinois, Tuesday to conduct funeral services for Mrs. Helen Jewett, 83, a lifelong friend of the Pollock family, and who was formerly a singer in the choir directed by Mr. Pollock's father.

COM. COUNCIL IS ORGANIZED HERE WITH 7 AFFILIATES

Group Will Co-ordinate Community Activities; Pollock is President

A new organization that promises to have a useful existence came into being Tuesday night with the formation of the Antioch Community Council, which had its inception last May when the Men's Civic club passed a resolution proposing the organization with a membership composed of one delegate elected from each church and each educational or civic group in this community.

The organization meeting held at the Grade school Tuesday night was attended by representatives of seven Antioch groups, and S. E. Pollock, who had acted as temporary chairman of the meeting, was elected president. Pollock also heads the Men's Civic club, the sponsoring organization. Mrs. M. M. Stillson, representing the Mother's Club, was elected secretary.

Purpose of Council. The new group sets forth the purposes of the council to be the co-ordination of activities of the various organizations represented and to provide leadership in affairs which require community co-operation. The council, however, will act only in an advisory capacity, and no representative will be expected to speak for his club on any matter unless specifically authorized by its members to do so. The council will also aid in setting appropriate dates for important social functions.

In cases of pestilence, disaster, or any other wide-spread calamity in the community the council would serve a useful purpose in organizing the various relief agencies for greater efficiency and for the prevention of any duplication of effort, as would be almost certain to occur with each unit working independently.

Seven Groups Represented. Besides Pres. Pollock, who represented the Men's Civic club, and Mrs. Stillson, delegate from the Antioch Mother's club, the following local organizations were represented at the meeting: American Legion—Dr. A. P. Bratrude; Legion Auxiliary—Mrs. Walter Hills; P. T. A.—Mrs. Elmer Hunter; Antioch Woman's Club—Mrs. Ed Vos; Business and Professional Woman's Club—Miss Hazel Hawkins; St. Peter's Altar and Rosary Society—Mrs. J. W. Schindler.

There are several other community groups not yet contacted, or not present at the organization meeting, notably the Antioch Fire department, the Methodist church, and St. Ignatius' church, and the newly formed Lions club. With these represented, the Community Council would include 11 local organizations.

Swanson Is Host to Antioch Men

Fred B. Swanson was host to a dozen Antioch men at an informal dinner at Bill Karpen's Roundup Tuesday night. Swanson, president of the Lake County Shrine club, brought greetings from Potentate Case L. Griffin and other officials of the Shrine club, expressing appreciation for the splendid co-operation received from Antioch men two weeks ago on the occasion of the tree-planting and centennial observance of the founding of Antioch.

GRADE SCHOOL TEAM BEATS FOX LAKE, 5-3

The Antioch Grade School baseball team beat Fox Lake in the latter's diamond yesterday afternoon, 5 to 3. Three more games remain on the local team's schedule—Grayslake at Grayslake, Oct. 4; Lake Villa (a postponed game) at Lake Villa, Oct. 6; and Round Lake here Oct. 8. The locals lost the first game to Mundelein, 10 to 11.

Students May Expect Fire Drills Next Week

Fire drills in connection with the annual observance of Fire Prevention Week will be held at both the grade school and the high school some day next week. Inspectors from the Antioch Fire Department will be observers when the alarms are given and they will take note of the time required to evacuate the buildings.

Mr. and Mrs. James Stearns attended the wedding of the former's niece, Miss Gertrude Strand, who was married to Herbert Noniser at Milwaukee Saturday. Mr. Stearns returned to Antioch Monday, but Mrs. Stearns remained in Milwaukee the guest of relatives until Wednesday.

Grayslake Man Gets \$20,000 Verdict for Lost Love of Wife

Love comes high in Lake county. Harold L. Kinsler of Round Lake, a Chicago garment manufacturer, was convicted of this Saturday when a Chicago jury handed down a verdict for \$20,000 against him for alienating the affections of Marion Ruth Mayer, divorced wife of John C. Mayer, interior decorator of Grayslake.

Mayer had sued for \$100,000 but after three hours deliberation the jury set \$20,000 as bail, and included a malice count in the verdict giving Mayer the opportunity to jail Kinsler if the judgment on the verdict is not paid. Attorney Bernard J. Juron, counsel for Kinsler, made a motion for a new trial, intimating that if another trial is not granted the case may be appealed.

Mayer's chief witness was Mrs. Irene Herschberger, 22, adopted daughter of the Mayers, who told of trysts in hotel rooms, at the Round Lake golf club and other places between Kinsler and Mrs. Mayer. The witness said she had been a domestic in the Kinsler home.

STANDARD BUILDS \$8,000 SERVICE STATION HERE

A new de luxe super-service station is in process of construction by the Standard Oil company at the corner of Main street and Park avenue. The new structure is to be of brick with white porcelain trimming and will add to the beauty of Antioch's "skyline."

It will mark the site of Antioch's first drive-in service station erected many years ago by the Standard company. The original small steel building was razed in a few hours Monday morning to make way for the modern building which will be completed in about five weeks. The new station will cost about \$8,000, and will be 28 x 40 feet, housing a display room, wash room and greasing racks, with a modern heating plant and rest rooms. New lighting effects will be installed.

Roy L. Marrie, who has operated the station under a lease for the past six years, is one of the pioneer oil men in this community. Twenty years ago when first coming to Antioch he had charge of the Standard company's distributing station here. At that time there were only two curb gasoline pumps in the village.

Antioch Aces to Be Guests of Chicago Cubs Next Sunday

Members of the Antioch Aces baseball team will be guests at Wrigley Field next Sunday when the Chicago Cubs play the St. Louis Cardinals. The invitation came to V. Lewin this week from the Cub's secretary.

Those who expect to enjoy the Cub's hospitality next Sunday are: Mr. and Mrs. Luliver Lasco, Mr. and Mrs. Oliver Hughes, Jack Crandall, Morris Bown, Jack Effinger, Bernie Shedeck, Howard Wells, Marie Shedeck, L. Hanke, Mr. and Mrs. V. Lewin, A. Hanke, Mr. and Mrs. B. Osmond, Mr. and Mrs. O. Christensen, and Mr. and Mrs. L. Osmond.

The Farmer and the Gold Brick

The time-worn story of the city slicker and the gold-brick might well be revived in view of John L. Lewis' bid for farmer support and his stated ambitions to organize the farm folk under a union.

To be sure, it would greatly enhance the CIO's powers if the American farmer could be rallied to support that minority of the labor ranks that marches under the Lewis banner—but it doesn't seem logical that the farmer wants labor dictating prices, especially when the farmer, along with the other industries, must pay those prices. Can you imagine the farmer voting deliberately to pay higher prices for the tools, clothing, machinery and prepared foods he buys, just because John L. Lewis asks him to? That would be his "reward."

Then, too, can you picture the farmer and his farm hands dropping the hoe by the clock and putting over until the morrow the milking duties just because the union dictates the hours a man may work? Time and nature do not recognize unionism, and until Mr. Lewis can enroll them in his fold, it is not likely that crops will be harvested and the cow hold her milk until another time.

Those Temporary Majorities

(From The New York Times)

"We live today in a world in which the safeguards of individual liberty are increasingly in danger. Temporary majorities come suddenly into power. In their haste to achieve objectives which they believe to be desirable, they brush aside, as of no importance, the doubts, the reservations and even the active opposition of large minorities which question the methods they would use. It was specifically for the purpose of protecting these minority interests and these individual rights that the makers of the American Constitution incorporated safeguards into their blueprint of democracy."

Building to Burn

The first five minutes of a fire are more important than the next five hours.

T. Alfred Fleming, of the National Board of Fire

Underwriters, quotes a number of instances of fires that became uncontrollable within an incredibly short time after their discovery. For example, a clothing factory in an Eastern city took fire at 2:30. By 2:35 the building was such an inferno that firemen could not endure the radiated heat across the street and 35 factory employees had already been cremated.

The main remedy for this condition is safer construction. It is much cheaper to fight a fire at the architectural drawing board than at the hydrant. But safer construction cannot be achieved until building codes in towns, large and small, are revised and modernized. Not long ago a review was made of the building codes in 281 municipalities containing 81 per cent of the population of a state. An alarming proportion of these codes were found to be inadequate and out of date.

New discoveries bring new hazards. Air-conditioning, for example, breeds fire hazards not provided for in the codes of 99 out of 100 cities, according to Mr. Fleming. A truly adequate building code must cover such contingencies as this. Improper ventilating systems are another prime cause of fires. In recent years there have been a score or more of total loss fires in schools where ventilating systems were completely responsible.

Fire Prevention Week, which begins October 3, should inspire every community to scientifically examine its code in the light of needed revision—and if it has no code, to start preparing one. Don't build to burn!

Just a Mere Incident?

In government language, it is merely incidental that the government is spending \$190,000,000 to go into the hydro-electric power business. There can be no other interpretation in the recent telegram to the Tennessee Valley Authority on the occasion of the dedication of Wheeler Dam, when the following message went out from the White House.

"Through unified control, the Tennessee River is stepped, up for navigation and, in the reverse order stepped down for flood control. At the same time, incidental generation of power by these steps provides a means of reimbursing the government in large measure for the money expended for the development and control of our inland waterways."

The estimated cost of the eleven dams that will comprise the TVA's project is \$520,600,000. Of this sum it is estimated that the navigation and flood control program would have cost only \$330,600,000 separately. Thus \$190,000,000 was added to the cost to enable the government to go into the business of developing power in competition with private business.

To speak of this expenditure and its purpose as "incidental" is certainly taking liberties with the English language.

HICKORY

Mrs. Hugo Gussarson celebrated her birthday on Sunday, September 26th, with a family reunion at her home. Those present were Mr. and Mrs. Otto Olsen, Sr., from Algonquin, Mr. and Mrs. Otto Olsen, Jr., from Park Ridge, also Mrs. Petersen, from Mr. and Mrs. Louis Milling and family from Wood Dale, and Mr. and Mrs. Allen Holberg and family and Mr. and Mrs. Walter Olsen and daughter from Chicago.

Mt. Rest Rosecrans Cemetery Society will not give its annual chicken pie dinner this year. Instead it will give a card party on Saturday evening, October 16th, at the Community Hall. Mr. and Mrs. Austin Savage and Mort Savage attended the funeral of their cousin, David Webb, in Waukegan, Monday afternoon.

Mr. and Mrs. George Olsen of Waukegan visited the Max Irving family Sunday afternoon.

Nels Hansen of Pikeville underwent an emergency operation for appendicitis at the Kenosha hospital Wednesday morning. He is getting along nicely.

Mrs. Olenmiller (nee Nellie Heresford) of Glenwood, Wisconsin, visited her friend, Mrs. Charles Griffin, last week. On Friday afternoon the two ladies with Mrs. Nettie Frazier, made several calls on old time friends in the community.

Mrs. Arthur Shearer of Oak Park and Mrs. Eva Stokes and daughter, Miss Eleanor, from Washington, D. C., visited their aunt, Mrs. Pickles, also their cousins, Mrs. H. A. Tillotson, Mrs. Wilbur Hunter and Mrs. Wilt Thompson.

John Crawford and son, Earl, visited Miss Bertha Crawford at Victory Memorial hospital in Waukegan, last Sunday afternoon.

Miss Grace Tillotson and friend, Miss Krutz of Kenosha, called at the H. A. Tillotson and E. W. King homes Monday morning of this week.

MILLBURN

Parent-Teachers meeting will be held at the school-house Tuesday evening, Oct. 5th.

Mrs. E. A. Martin and Mrs. O. L. Hollenbeck attended a card party held at the home of Mrs. Archie Webb at Gurnee on Wednesday afternoon.

Mr. and Mrs. William Carney of St. Olaf, Iowa, and Mr. and Mrs. B. H. Herick of Fredericksburg, Iowa, spent the past week at the Herick home.

Allan Peyer started his school work at Chicago University this week.

Mr. and Mrs. Dan Cutler of Russell were callers at the home of Mrs. George Edwards Sunday evening.

Mr. and Mrs. Ross Stewart of Chicago were callers at the J. H. Bonner home Sunday afternoon.

Mr. and Mrs. Keefe of Waukegan visited at the H. M. Herick home on Sunday.

Mrs. Lewis Bauman is spending much time in Waukegan with her mother, Mrs. George Larsen, who is seriously ill at her home on Grand Avenue.

Mr. and Mrs. D. L. Carney and son, Donald, of Chicago were dinner guests at the Herick home Thursday evening.

Mr. and Mrs. Ray Harmer and son,

Robert, of Waukegan were callers at the J. Kaluf home Sunday afternoon. Mr. and Mrs. H. M. Herick with their guests from Iowa attended the ball game in Chicago Tuesday.

Mr. and Mrs. Robert Erwin of Waukegan and Mr. and Mrs. Warren Edwards and family of Hickory called on Mrs. George Edwards Sunday afternoon.

John Trotter returned on Friday to his home in Junius, South Dakota, after a week's stay at the Clarence Bonner home.

Mrs. W. A. Bonner spent Friday at Local Leaders' Training School at Farmers Hall in Grayslake where she received a lesson on "The Well Lighted Home," which she will present at the next Home Bureau meeting at the home of Mrs. Clarence White on Oct. 21st.

LAKE VILLA

Mr. and Mrs. G. Swanson returned Monday from a pleasant visit with the Carl Sorenson family at Tomsdalk, Wisconsin.

James Kerr accompanied his son, Ray Kerr, on a trip to Three Lakes, Wis., over Saturday and Sunday. Mr. and Mrs. Ray Kerr have spent the past week or ten days here while Mr. Kerr transacted business in Chicago and Milwaukee, and they returned this week to their home in Centralia.

Mr. and Mrs. Carl Ekdahl spent Sunday with friends in Chicago.

Mrs. John Meyer and Mrs. Leo Barnstable represented the Lake Villa P. T. A. at a group meeting at Algonquin last Friday and brought back an enthusiastic report of the meeting.

Mr. and Mrs. Carl Seeger started last Thursday morning for Cleveland, Ohio, to spend a week with their daughter, Mrs. Ira Bailey and family there.

Mr. and Mrs. Richard Whitaker returned last Wednesday from a pleasant vacation of five weeks spent with Mr. Whitaker's mother and sisters in Massachusetts.

Mr. and Mrs. John Sonnenberg and their sons, Ronald and Virgil, visited relatives at Aurora last Saturday and Sunday.

The Lake Villa fire department was represented by seven members at the County meeting at Waukegan Monday and enjoyed the trip through the wire mills. Those who attended were Fire Chief I. Barnstable, W. Hook, J. Effinger, W. Rhoades, F. Nader, C. Hamlin and Fred Hamlin.

Mrs. Frederick, Mrs. A. Nauta, Mrs. Frances Wedge and Miss Kathryn Nauta of Waukegan, Mrs. Mary Miller and daughter, Miss Bessie, also Mrs. Delia Heiting of Libertyville were guests of Mrs. Lester Hamlin at her home last Thursday.

Mr. and Mrs. U. C. Monson of De Kalb spent Saturday with the C. B. Hamlin family and called on other friends. The Monsons lived here about thirty years ago, and Mr. Monson was principal of the school, and both were very active in church work.

Rev. I. B. Allen has issued a special invitation to the Ladies' Aid Society to attend church with their families next Sunday morning, and his subject will be the Parable of the Talents.

The Aid Society will meet Wednesday afternoon, Oct. 6, with Mrs. Blumenschein at her home and all are very welcome.

Mrs. James Leonard is confined to

her home by illness. Howard Wilton spent a few days last week in Chicago.

Mr. and Mrs. Fred Bartlett and family were Waukegan visitors Saturday evening.

Mr. and Mrs. Gleason entertained a niece and friends from Milwaukee at their home Sunday.

Mrs. Louisa Thayer and Margaret Walker were Waukegan visitors last Thursday.

Miss Mary Kerr With the passing of Mrs. Mary Kerr, Lake Villa loses one of its oldest residents. She was born in Hamilton, Canada, the fourth in a family of six girls and one boy born to Thomas and Mary Kerr, and of the family, only one, Mrs. Alice Spring of Millburn, the youngest of the group, is left.

Mary Kerr came here with her parents as a very young child and lived until 1913 on a farm west of the village which was later sold to Henry Atwell. She and her brother, John Kerr, then moved to the village, and since his passing more than twenty years ago, she has lived alone a greater part of the time. She was a faithful and loyal member of the M. E. church at Lake Villa and spent many years serving her God and her church. She had been in failing health for some time and passed away at her home early Monday, September 27, 1937, at the age of 84. Besides her sister, Mrs. Spring at Millburn, she leaves five nieces and three nephews, one of whom is J. K. Cribb of this place, and a host of friends. The funeral was held from her late home Thursday afternoon, with Rev. I. B. Allen of the Lake Villa church preaching. The burial was in the family lot in Lake Villa cemetery.

Lake Villa School Notes The students of the school are attempting to write news of the school for each week and a copy is being sent to the newspapers of the community.

P. T. A. meeting was held Monday evening, Sept. 20, and the reports are there were not many of the parents present, so we hope that more of the parents can attend the next meeting.

The school band is now in its fourth week of practice and is under the direction of John Hodge of Fox Lake. We lost a few members of the band during the summer, but hope to increase membership before long.

Mr. Adair of Kenosha, Wis., is holding his tap dancing classes on Monday mornings. There are seventeen students taking tap dancing lessons.

Mr. Brickman, our janitor, has recently built a bicycle stand, a large outdoor sand box for the primary children and large open bookcases in the primary and intermediate rooms to replace the old noisy bookcases.

The boys' indoor ball team is playing two of their regular conference games this week—one with Round Lake and the other with Grayslake.

The Boy Scouts had a hike last week and cooked their supper out doors in the woods. Every boy that went had a splendid time.

The Scouts have been invited to attend the Northwestern-Iowa foot ball game this Saturday afternoon at Evanston, free of charge.

We students wish to extend an invitation to the community to visit our school at any time.

Drop in Temperature For every 1,000 feet of height from the ground the temperature drops 3 degrees.

But It's True

ALBERT MASON
OF TUBELLO, TEXAS
HAS RUN
TEN MILES
EVERY DAY
FOR 24 YEARS

A FIELD NOW OWNED
BY KRLEGAS POENFING
OF TORRINGTON, CONN.,
HAS PRODUCED CORN
EVERY SUMMER FOR
100 YEARS, AND ALL
OF IT HAS BEEN
GROWN FROM SEED
RAISED THERE.

GENERAL
U. S. GRANT
SMOKED AN AVERAGE

EVERY DAY FOR THE
LAST EIGHT YEARS
OF HIS LIFE...

The field was owned originally by Henry Boynton, who decreed in his will that if his farm should be sold, the new owner would have to agree to grow corn there from seed developed there the year before. The idea has been carried out right up to the present day.

Grant kept track of the extent of his cigar-smoking in his diary.

WILMOT

Mr. and Mrs. Jerry Lavendoski and Audrey are on a vacation trip to Grand View, Wisconsin.

Russell Endee and Thomas Duffy were in Milwaukee over the week-end.

Sheboygan guests at the home of Miss Anna Kronicke over the week-end included the Misses Clara, Lulu and Bertha Fricker; Mr. and Mrs. Carl Jaug and Miss Clara Schmidt.

Mr. and Mrs. C. M. Andersen were down from Milwaukee for the week-end at the home of Mr. and Mrs. Martin M. Schnurr.

Mr. and Mrs. Ivan Newell, Viola and Joyce Newell and Carol Foulke motored to Baraboo and Devil's Lake for the day, Sunday.

Mrs. Ben Nett and daughters were in Kenosha, Saturday.

Mr. and Mrs. William Wertz and children spent Sunday with friends at Oak Park.

Mr. and Mrs. David Kimball; Mr. and Mrs. Lynne Sherman; Mr. and Mrs. Wayne Tilton were dinner guests Sunday of Mrs. Bessie Kimball; Miss Hulda Kimball at Genoa City. Mr. and Mrs. Tilton spent the evening with Mr. and Mrs. Ray Bufon.

John Kevin Carey, McHenry, is visiting his brother, Dick Carey, at the Carey home. Mr. and Mrs. J. A. Nolan, Oak Park, and Mr. and Mrs. Wallace Dobyns, Waukegan, were there on Saturday and Sunday respectively.

There will be English services at 9:30 and German at 10:45 at the Peace Lutheran church Sunday morning.

Rev. and Mrs. S. Jedicke, Mr. and Mrs. Arthur Fiegle and son, Jimmie, were dinner guests of Rev. and Mrs. Henry Diehl, at Lake Geneva, Sunday.

Mrs. Louise Barter and Pearl Owen were guests for the day Saturday of Mr. and Mrs. Fred Faulkner.

The M. E. church party Tuesday evening is to be held in honor of the teachers in the Wilmot schools and schools in the vicinity. Lunch will be served.

Mrs. Jessie Paige, Harold Paige and Miss F. MacBerrie of Evanston were guests Sunday of George Hyde.

Mrs. David Kimball entertained at a dinner Saturday for Mesdames Lou Cole, Earl Hyde, Crystal Lake; Mrs. Selma Pierce, Spring Grove, and Mrs. Frank Kuckman.

Mrs. William Harum and son, Rodelle, Miss Freda Grabow and John Grabow were in Kenosha Sunday, guests of Mr. and Mrs. Oliver Balza.

Miss Virgene Voss spent Saturday with her grandparents, Mr. and Mrs. William Eilers at Richmond.

Grace Sutcliffe and Dr. E. McEwen, Oak Park, were out Saturday at the home of Mr. and Mrs. John Sutcliffe. Clifford Rasmussen, Arthur Winn, Raymond Rudolph and Carl Saterston motored to the state game farm at Poyette on Saturday.

Mrs. Harry McDougall is spending today (Thursday) in Chicago.

Mr. and Mrs. Ray Perry, Zion, spent Sunday with Mr. and Mrs. T. C. Loftus. Mr. and Mrs. Peter Olsen, of Salem, were there on Friday.

Mr. and Mrs. Fred Grabow and Mr. and Mrs. Ray Rudolph motored to Davenport, Iowa, for the day, Sunday. Mrs. Don Herick was out from Chicago over the week-end with Mr. and Mrs. H. McDougall. Don and Ford Herick are on a fishing trip at Fremont Lake, Wisconsin.

U. P. High School The following four judging teams from the Agriculture department representing the U. P. High School will go to Madison for the annual Judging Contest at the University on Friday:

Dairy Cattle—Willard Englehardt, Donald Van Der Zee, Chester Boyington, Fat Stock—Stuart Waldo, Merlin Johns, Charles Jackson. Meat—Frank Voss, Lawrence Freeman, Earl Swenson. Poultry and Eggs—Ralph

Freeman, James Faber, Roger Sherman, Dairy Products—Fred Sarbacker, James Axtell, John Faber.

The teams will be accompanied by their instructor, Principal Martin M. Schnurr, who will take them to the Wisconsin-Marquette football game at Madison on Saturday.

The football team was defeated at a non-conference pre-season game with McHenry Friday afternoon. The score was 12-0.

The opening conference game will be played at Wilmot Wednesday afternoon with Union Grove.

Organization Officers—Boys Chorus: Pres., Bob Mooney; vice-pres., P. Hardy Schmalfeldt; Sec.-treas., Lawrence Freeman; Student Council, Jas. Axtell; Girls' Dramatic Club, Irene White; Pres., vice-pres., Lorraine Roberts; sec.-treas., Ardis Lischka; Student Council, Avis Riemann; Boys Athletic Club—Pres., Harvey Beaster; vice-pres., Lawrence Freeman; Sec.-treas., Joe Rausch; Student Council—Donald Peterson.

Future Farmers—Pres., Gilbert Peterson; vice-pres., Ralph Freeman; sec.-treas.—Donald Johnson; Student Council, Frank Voss.

Thies-Fiegle Egg shell satin formed the princess style gown with a slight train that was worn by Miss Vivian Thies of Park Ridge, Illinois, for her wedding Saturday to William F. Fiegle, of Wilmot at the Peace Evangelical Lutheran Church in Wilmot. A circular shoulder tie veil was draped loosely over her hair and from beneath this in back peeked a satin petaled flower to match her gown. A round bouquet of white asters and baby's breath completed her costume.

Frederick J. Thies of Park Ridge, Illinois, presented his daughter in marriage. Mrs. Thies, the bride's mother, watched the ceremony gown in a blue georgette and cut velvet dress and wore a corsage of rose-colored asters.

Mr. and Mrs. Herman Fiegle, of Wilmot, the bridegroom's parents, were also present in the pews set apart for the families. Mrs. Fiegle wearing a figured rust crepe gown with rust and brown accessories and a corsage of pale orchid-colored asters.

A large basket of flowers adorned the altar and placed to the left was a green vine shaped into a cross with three candles, one on top and one on either arm, adding their glow to the many lighted tapers on the altar. The Rev. S. A. Jedicke read the service. Mrs. Arthur Fiegle presided at the organ and Mrs. Caroline Shammun sang, "I Love You Truly" and "Because."

Attending the bride was Mrs. Agnes Van Patten, matron of honor, in aquamarine blue taffeta with orchid gladioli. She wore tiny feathery plumes in her hair to match the hue of her gown.

Adolph Fiegle was best man and Milton Pella and Raymond Kotz ushered the large number of guests attending to their places.

Two hundred attended the reception and buffet supper following the church service at the Danish Hall, Antioch, Illinois. Later Mr. Fiegle and his bride left on a honeymoon tour of the south.

After October 3rd, they will be at home to their friends in Geneva, Illinois. Mr. Fiegle is a foreman at the Spritt Motor Sales, St. Charles, Ill.

Odd Harbor Coincidence An amazing coincidence occurred in San Francisco harbor. In 1914 two tankers, with the same dimensions, equipment and owners, were built in the same shipyard. In 1922 one collided with a steamer and sank. In March, 1937, relates a writer in Collier's Weekly, the other vessel collided with the same kind of steamer, in the same manner and place and under the same circumstances, and then sank crosswise upon its sister ship.

STATEMENT OF OWNERSHIP, Management, Circulation, etc., required by the Act of Congress of

March 3, 1933

Of The Antioch News, published weekly at Antioch, Illinois, for October 1, 1937.

STATE OF ILLINOIS

COUNTY OF LAKE

Before me, a Notary Public in and for the State and county aforesaid, personally appeared H. B. Gaston, who, having been duly sworn according to law, deposes and says that he is the Owner and Publisher of The Antioch News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, to wit:

That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher—H. B. Gaston, Antioch, Illinois.

Editor—H. B. Gaston, Antioch, Illinois.

Managing Editor—H. B. Gaston, Antioch, Illinois.

Business Manager—H. B. Gaston, Antioch, Illinois.

2. That the owner is: H. B. Gaston, Antioch, Illinois.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Hazel Sibley, Antioch, Illinois.

(signed) H. B. GASTON, Owner. Sworn to and subscribed before me this 27th day of September, 1937.

(seal) S. Boyer Nelson, Notary Public. (My commission expires Jan. 5, 1939)

TREVOR

Mr. and Mrs. John Gever were Kenosha visitors Tuesday.

Mrs. William Boersma, Jr., spent Tuesday in Wilmet.

Mrs. Theron Hollister and son, Vernon, accompanied Mrs. Albert Weinholz to Kenosha Wednesday.

Mr. and Mrs. Homick, Forest Park, called on Mr. and Mrs. A. J. Baethke, Wednesday.

Fritz Oetting was a Kenosha visitor Wednesday.

Mrs. William Scaenzel and son, Lawrence, Wilmet, called on her sister, Mrs. Mattie Copper and daughter, Gertrude, Tuesday evening.

Mrs. Frank Lasco, Kenosha, and daughter-in-law, Mrs. Walter Lasco and daughters, Powers Lake, were callers Wednesday on the former's daughter, Mrs. Charles Oetting.

Mrs. Phil Lavenduski accompanied her son, Larry Lavenduski, wife and daughter on a motor trip to the northern part of the state.

Mrs. George Faulkner of Wilmet called on the Patrick sisters Thursday afternoon.

Mr. and Mrs. Elmer Fleming spent Thursday evening at the parental homes in Burlington.

Hiram Patrick and granddaughter and husband, Mr. and Mrs. Edward Eisenhart, Burlington, called on the former's sisters Sunday afternoon.

Mr. and Mrs. Joseph Leizer, Chicago, are spending a few days at Diana Lodge.

In their opening game of the Fall Tournament to determine the county soft ball championship, the Trevor school proved themselves to be in tip-top shape, defeating the combined forces of the Twin Oaks and Minor schools, both of Brighton township, by a score of 13-3. The second game was played September 27, with Brass Ball as their opponents, at Trevor.

Charley Hahn, Forest Park, was a Trevor visitor Thursday.

Mrs. Henry Ernie, daughter, Ilene, and friend, Chicago, spent Thursday in Trevor.

Mr. and Mrs. Frank Gerard, Kenosha, with friends, called at the A. J. Baethke home Wednesday evening.

Mrs. Lusanah Patrick gave a dinner on Friday in honor of Mrs. D. O. Castle of Stockton, California. Those present were five of their schoolmates; namely: Mrs. Irene Van Wic Paddock, Paddocks Lake; Winnie Prosser Wicks, Silver Lake; Susan Grant Manning and Ollie Clark Mutter, Salem; and Anna Cull Brown, near Trevor. Thirteen years ago a similar gathering was held at the home of Mrs. Wicks in Silver Lake. As children they attended the Brass Ball school.

Miss Linda Buschman, Antioch, called on her uncle and aunt, Mr. and Mrs. A. J. Baethke, Thursday. William Ager, Union Stock yards, Chicago, was a business caller at the Trevor stock yards Sunday.

A hundred guests from Racine, Kenosha, Bristol and Trevor attended the wedding reception at Trevor Social Center hall Saturday evening in honor of Miss Rose Schaffer and August Mark who were married at the Lutheran Church, Wilmet, on Saturday afternoon. After a most delicious luncheon dancing was enjoyed by all present. Mr. and Mrs. Mark received many beautiful and useful gifts and their many friends wish them a long and happy married life.

Mrs. Pete Adelson and children, Kenosha, spent Saturday at the Klaus Mark home.

Ed Burns and John Gever were Janesville, Wis., visitors Saturday.

Sunday callers at the Alfred Dahl home were: Mr. and Mrs. J. M. Beck, Mr. and Mrs. H. J. Beck and daughter, Iger, Mr. and Mrs. Peter Harris and sons, John and Arnold, Racine, Wis., Mr. and Mrs. Pete Petersen, Waukegan, Illinois.

Mr. and Mrs. Ed Yopp and daughter, Dolly, were Friday evening callers at the John Yopp home, Grass Lake.

Mr. and Mrs. William Yopp and son, William, Jr., Mundelein, Illinois, called on relatives in Trevor Sunday.

Mr. and Mrs. Robert Houlton, Bristol, and Mr. and Mrs. Edwin Houlton, Chicago, were Sunday callers at the Theron Hollister home.

Mrs. Eldon Allen and son, Spring Grove, Illinois, called on Mrs. Elmer Fleming Thursday afternoon.

Mrs. Albert Weinholz entertained a number of relatives Friday evening in honor of her birthday anniversary. Five hundred and bunco furnished the evening's entertainment after which a delicious luncheon was served by the hostess.

Adeline Oetting, Oak Park, spent over the week-end with her parents, Mr. and Mrs. Charley Oetting.

Donald and John Hubbard returned to their home in Chicago Sunday evening with their parents, Mr. and Mrs. J. Hubbard, after spending the summer with their grandparents, Mr. and Mrs. John Mattis.

Fritz and Herman Oetting, Jr., Berwyn, Ill., and Mr. McMillen, Chicago, enroute from a two weeks fishing trip to Basswood Lake, northern Minnesota, and Canada, called on their uncle, Charley Oetting, and family Sunday.

Four carloads of Montana lambs were unloaded at the Trevor stock yards on Saturday evening.

Mrs. Pearl Hartnell and daughter, Dorothy, Milwaukee, spent Sunday with her parents, Mr. and Mrs. Daniel Longman.

Mr. and Mrs. Edgar Baethke, Forest Park, spent over the week-end with their parents, Mr. and Mrs. A. J. Baethke.

Mr. and Mrs. Joseph Jetecek and son, Joseph, Jr., Chicago, spent over the week-end with Mrs. Jetecek's par-

Light-Conditioning Opens New Era in Home Comfort

This light-conditioned living room provides eye-comfortable illumination for every member of the family.

By Jean Prentice

NOW comes "light-conditioning" to be added to the comforts of home. When rain beats against the window pane or when early twilight falls, light-conditioning will make eyesight-conserving and beautified light available at the turn of electric switches.

Scientific Standards
A home is light-conditioned when its lighting meets scientific standards for eyesight protection. The correct new lighting in a cottage or to the approved illumination in a pretentious home.

A single room may be light-conditioned by following the new rules. Or an entire home, from basement to attic, can be conditioned against gloomy days and long evenings.

Not for many years have there been so many developments as recently in home lighting.

First important departure came with the unearthing of new scientific facts on the relation of light to sight. To give the more abundant light, which researchers found was needed, shades of lamps, grew bigger and table lamp bases grew taller. An instrument was perfected to measure home lights quickly and without fuss. Providing enough light to see safely was thus taken out of the realm of guesswork.

Light-conditioning has sprung from all these developments.

Planned for Comfort
How to light-condition your own living room is illustrated by the accompanying picture. The lights here were planned for the comfort of a father, mother, and two children, as well as for the beautifying of the home.

Notice that the lighting presents a symmetrical appearance. It is well-balanced. Also it is well-diffused. There are no depressing shadows. The illumination is stimulating.

Since, for eye comfort, we should not read or sew in a single island of light in an otherwise dark room, the ceiling fixture was selected to provide an over-all smoothness of light. It reflects most of its light to the ceiling, to be distributed into the room.

I especially like light-conditioning's provision for a good lamp near every sitting place!

Provision for All Eyes
The scientifically designed study lamp on the desk serves both desk and chair. The large comfortable fireside chair is made still more comfortable with an approved bridge lamp . . . which produces 25 foot-candles of light at book level.

At the davenport, twin end-table lamps, also of scientific structure, assure good lighting for two or more persons. And for an unseen grouping of furniture in the left foreground there's a floor lamp giving three levels of light.

For beauty's sake alone there's a bowl of electric light, or decorative urn, on the radio. It is the finishing touch for a cheerful room where overcast skies outside cannot put a damper on one's spirits . . . or one's eyes.

Trout Like Swift Streams
Trout live in swiftly moving streams because of the great amount of oxygen dissolved in such waters.

Ohio's First Constitution
Either Ohio's first constitution, adopted in 1802, was flawless—or something—but not an item in it was changed for half a century.

Prickly Pear a Cactus
The prickly pear, known also as the Indian fig, is neither a pear nor a fig, but a cactus.

Habits of the Chinese
The Chinese are extroverts; they make gestures and chatter and laugh and get angry all in public.

Sweat Glands in Snout
The sweat glands of a pig are located in its snout, the only point where the animal perspires.

FLOOR SANDING
New floors made perfect; old floors made like new. Call

Making Roquefort Cheese

The process of making Roquefort cheese includes inoculating the curd with a mold grown in loaves of bread. The bread finally becomes a mass of mold in the spore stage. This is dried, ground to a powder, and sprinkled over the curds as they drain.

Beetle Has Headlights

In the West Indies and Central America there is a large click beetle which has on the forepart of its body two large luminous spots giving out so brilliant a light that it is called in some places the "automobile bug."

GRASS LAKE PTA SPONSORS PARTY

A card and bunco party will be given by the Grass Lake Parent-Teachers association at the school this Friday night. Refreshments will be served and there will be prizes for winning players.

Talent Will Bring Success
The talent of success is nothing more than doing what you can do well, without a thought of fame. If it comes at all it will come because it is deserved, not because it is sought after. It is very indiscreet and troublesome ambition which cares so much about fame, about what the world says of us, as to be always looking in the face of others for approval, to be always anxious about the effect of what we do or say, to be always shouting to hear the echoes of our own voices.

Originated Railway Guides
George Bradshaw (1801-53), an English map engraver, was the originator of railway guides. In 1839 he published Bradshaw's Railway Time Tables, which later were known as Bradshaw's Railway Companion.

CHRISTIAN SCIENCE CHURCHES

"Reality" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 26.

The Golden Text was, "For ever, O Lord, thy word is settled in heaven" (Psalms 110:89).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "His name shall endure for ever: his name shall be continued as long as the sun; and men shall be blessed in him: all nations shall call him blessed. Blessed be the Lord God, the God of Israel, who only doeth wondrous things. And blessed be his glorious name for ever: and let the whole earth be filled with his glory" (Psalms 72:17-19).

The Lesson-Sermon also included the following passages from the Christian Science Textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Reality is spiritual, harmonious, immutable, immortal, divine, eternal. Nothing unspiritual can be real, harmonious, or eternal" (p. 835).

Colorado, where they spent several weeks.

The Friendship Circle held their first meeting of the season at the home of their president, Mrs. G. R. Bicknell, Wednesday evening.

Mrs. M. M. Miller and Mrs. F. B. Swanson spent Wednesday in Oak Park.

Outside of man's world as the most highly evolved in the matter of refined and intellectual amusement. They add to their regular pleasure resorts, especially social dancing and posing of ship days, using flowers, hued colored shells, feathers, rags, and pebbles as decorations.

Braille System for the Blind
A Frenchman of a century ago enabled thousands to lead successful lives despite blindness. Louis Braille perfected an earlier system of teaching the blind to read raised letters with their fingers. Instead of using raised letters, he used perforations in paper. Briefly, his system is an alphabet consisting of holes in paper arranged in various combinations. For instance, two vertical dots. Numbers from 1 to 10 are the first 10 letters of the alphabet, preceded by a number sign.

American Wooden Indian Followed British Model

Two hundred years before he became American the wooden Indian was British, and even as far back as 1617 occupied the counters of the apothecary's shop. Not until the reign of Queen Anne, according to a writer in the New York Times, were shops opened purely for retelling tobacco products. Owing, probably, to the fact that the average artist of that day did not acquaint himself with the aborigines of other lands through first-hand experience, the characteristics of the wooden Indian smacked of African lineage. His embellishments often included the Roman shield, spear and tunic, though sometimes the skirt was of tobacco leaves and his headdress was composed of ostrich plumes. In fact, effigies of that particular design were usually called black-boys, the possible connection being between slaves who worked in tobacco fields and Indians who smoked the leaves of the plant.

The carvers of these figures were not limited to amateur artists. Some of the foremost sculptors of the day turned out many a well-modeled brave. Unfortunately, sculptors did not hallmark their pieces, so that little or no positive identification is possible.

Pine was the favorite wood from which the body was made — usually of one piece, exclusive of the arms. It was first blocked out with an axo into the space allotted for head, body, legs and feet. Carver's chisels roughly indicated detail later to be picked out with more delicate tools. The hands and arms were attached with screws. Occasionally an entire figure was constructed wholly of small blocks of wood glued together.

Pointer Good Field-Trial Dog

Pointers as a breed possess the competitive spirit to a greater degree than is usually found in other bird dogs, a quality that makes them especially suited to public performance. It is rumored that during the Nineteenth century the English Pointer was repeatedly crossed with various Setters as they came into existence and favor. This, it seems, was partly to improve an old characteristic of the Pointer, an independence that made him object to correction and discipline, but which has made him the superlative field-trial dog.

Graveyard for Horses

Broomstick, Whisk Broom II, Peter Pan and many other great horses are buried in an attractive horse graveyard on the Whitney farm in Kentucky. Each grave is marked with a large tombstone.

When dancing teacher meets dancing teacher a new step is almost bound to be shown. So when Adolph G. Franksen, dancing instructor at Chicago's south side Trianon Ballroom, met Helen Steinman at the annual convention of the Chicago Association of Dancing Masters he straightway introduced to her the swiny steps of his new dance creation, "Posin'." Try it yourself with these action pictures as your guide.

Woodpeckers Attack Dead Trees

The woodpecker has short, sturdy legs and his four sharp-clawed toes, two pointing forward, two backward. With them he clings tightly to a tree, balancing his body with his stiff tail. That allows him "free wheeling" for his chisel-shaped beak. No insect can escape him. After digging to a bug, his long, round tongue cleans out niches like an antenter's. Contrary to popular belief, woodpeckers do little harm to trees. They seldom attack a healthy tree, but they do clean diseased ones of harmful insects.

Illness Saved Treasures

So distraught was the eminent Bolshevik savant, Lunacharsky, over the reported demolition of Basil cathedral during the first days of the revolution in Russia that he became ill and took to his bed, writes Albert Rhys Williams in "The Soviets." Lenin went to see him and made him the head of a special commission for protecting and preserving the cultural inheritance of the past. As a result Russia's art treasures were saved.

Federal Beer Tax Reaches Billion

BEER, designated by national leaders as the bulwark of inviolation, has also become a tax bulwark to such an extent that on August 10 it had netted the Federal Government its billionth dollar in excise revenue since it was relegalized on April 7, 1933.

On June 30, 1937, at the end of the fiscal year, the aggregate had reached \$958,159,756, of which \$27,500,000 was for work, malt and special taxes and the balance for barterage tax. With tax stamps being purchased during summer at the rate of more than a million dollars worth a day, statisticians were able to fix August 10 as the day when the billionth beer tax dollar was ear-marked for the Federal treasury. This, incidentally, is exclusive of the State-imposed taxes, which have aggregated in the neighborhood of a quarter-billion dollars since relegalization.

Economists point out that this billion is practically "net profit" for the Government, there being almost no expense for collection—in contrast to the millions paid out for full enforcement and loss of revenue for the Federal treasury during prohibition, when only bootleggers

and speakeasies were the galea. Under the present setup, Uncle Sam exerts almost no effort in collecting his beer tax. The brewer purchases revenue stamps in advance, cancelling them as the beer leaves the brewery. Meters, installed at the brewers' expense and supervised by Federal inspectors, provide an extra check against possible inaccuracies.

One of the reasons why the billion piled up so fast in comparison with previous years is that the current Federal beer tax is five times the amount levied by the Government before prohibition. In 1914, when the per capita consumption was at its peak, the Federal tax was \$1 per barrel and there was no State tax. Today the Federal tax is \$5 and State taxes vary from 62 cents to \$1.95 a barrel.

At least three factors have been suggested to explain the arrival of the billionth dollar date in advance of early anticipations: (1) improved economic situation, itself induced by relegalization of beer stimulating industry; (2) growing popularity of packaged beer; and (3) return of beer as a home beverage.

Harp Was in Use Years Before Christian Era

The harp was played thousands of years before the Christian era; it especially was favored by the Egyptians. King David is mentioned in the Bible as being a harpist. In Verdi's opera, "Aida," the harp is featured in the orchestral score. The harp is triangular in shape, has a range of more than six octaves and is played by plucking the strings with the fingers; the ancient Egyptian harp had no front pillar to support the strings. The harp was also popular in ancient Greece and Rome. It was the national instrument of Ireland, Scotland and Wales in ancient times, relates a writer in the Indianapolis News. The ancient lyre is another form. O'Brien Boru, an Irish king, was famous for his ability as a performer. Harp-playing contests were a feature of the Feis, the ancient parliament of Ireland, held up to 560 A. D. The Irish folk-song, "The Harp That Once Thro' Tara's Halls," celebrates the fame and mourns the decadence of the Irish instrument.

The Welsh harp is called a telyn, and harp-playing contests also were a feature of the Eisteddfod, the Welsh parliament. The Scotch instrument is called a clarsach. King Alfred of England not only played the harp, but, in wartime, visited the camp of his Danish enemies in the guise of an itinerant harpist.

The chief musical deficiency of the harp was that it had but one scale. Sebastian Erard improved the older instrument which enabled it to function as perfectly as any other orchestral instrument. He added a seven-pedal mechanism to shorten the strings so that harps could be played in eight keys. The ancient harp was tuned in the key of E-flat; the modern is in C-flat. Flat keys are used because they used the greatest length of the strings, increasing the intensity of the vibrations. The ethereal sounds which are produced on the harp are called harmonics.

Fame of Paisley Traced; Originated in Cashmere

The Paisley pattern, one of fashion's favorites, traces its Scots name by devious route and reopens a forgotten chapter in history. The beautifully blended design originated in Cashmere, India, whose natives made a specialty of exquisite wraps, hand-woven from the fine long fleeces of the Cashmere goat. Into every like tracery, went years of patient toil and skill.

From India the shawls reached Egypt by the old trade routes.

The enterprising folk of Paisley, in Renfrewshire (noted for centuries as weavers), saw the possibilities in the hand-wrought Indian article, and their efforts to reproduce the pattern on their looms met with success. From this achievement, according to a writer in the New York Times, grew an industry whose story is one of the romances of commerce. The business evolved from an idea, on through the stage of world renown and to virtual extinction within eighty years; but in its boom days shawls were manufactured to the value of \$5,000,000 and some of them sold for \$100.

Paisley has been a place of weaving since the Seventeenth century, when practically every cottage in the surrounding shire, as well as in the town itself, had its hand loom and attendant workers in linen and wool.

Though Paisley was founded by the Romans in 84 A. D., the village really grew up around the abbey started in 1163 by Walter Fitzalan, first high steward of Scotland and founder of the royal Stuart dynasty. It was Marjory, daughter of Robert the Bruce, who married Walter, the sixth steward, and their son, King Robert II, was the first of a line of sovereigns that ruled Scotland for five centuries.

Robert II was buried in Paisley abbey in 1406, and in 1888 Queen Victoria honored his house by placing a monument over his grave.

Mogul Diamond Is Among Gems in Moscow Exhibit

In an unpretentious room in the Moscow treasury, there is a simple glass case that contains the Great Mogul diamond, one of the largest in the world.

This priceless stone, formerly called the Orlov in honor of the count who ran many risks to procure it for Catherine II's collection, has a long and colorful history. Originally weighing 300 carats, it adorned the throne of the Persian Nadir Shah until 1722, at which time it passed into the hands of the extravagant Russian empress.

Nadir Shah, to gratify a whim, decided to have it cut differently. The recutting was performed, but the Great Mogul lost 100 priceless carats. However, still flawless and of brilliant luster, it ranks among the leading diamonds of the world.

The treasury building's collection consists of several thousand precious stones. Afghanistan tribes bought secretly in China to grace the crown of the Empress Catherine, chrysolites gathered from the Red sea by Crusaders, rare emeralds and rubies, diamonds famous throughout Indian and Persian history, all having curious legends of their own, are set simply in black velvet casings in the treasury museum.

Evil lures only by false promises.

Curiosity leads to knowledge.

ALL-AMERICAN DRINK

By Edythe Loren

A NEW member of the All-American team of hot dogs, pancakes and Flivvers is iced tea.

It has come to play a role in this country that beer does in Germany, coffee in Turkey, and coconut juice in the South Sea Islands. Whether it's gulped with gusto over lunch counters or sipped at leisure in exclusive clubs, it's still the Star Spangled Banner's answer to hot thermometers.

The American motorist carries it in his trusty thermos. Congressmen serve it to constituents. Housewives list it as a summer necessity. It's part of every picnic program and the high point of village socials. To the tinkle of its ice, Mrs. Jones tolls "all" to Mrs. Smith. It's Jimmy's reward for eating his carrots and the policeman's excuse for visiting the cook. It's as inseparable from summer menus as mint from Juleps.

Like potatoes, it lends itself to a variety of recipes. First of all—just plain iced tea. You prepare your brew by first boiling the water, pouring the over the tea leaves—two teaspoons to a glass instead of the one as to a cup, allowing for the dilution by the ice. Allow it to steep for three to five minutes. Strain, and put aside to cool. When you're

ready to serve it fill glass with ice, pour in the tea, add sugar to taste, and serve with slices of lemon. A nice extra touch is a sprig of mint. Here are recipes for two new variations.

Orange Blossom Tea Punch
One cup sugar syrup, 2 cups freshly brewed tea, 6 cups orange carbonated beverage, 1 slice orange. Add sugar syrup to tea and pour over ice. Add orange beverage and garnish with orange slices. Makes 2 quarts.

Cherry Ginger Tea Punch
One cup sugar syrup, 2 cups cherry juice, canned, 2 cups freshly brewed tea, 1 quart gingerale. Add sugar syrup to cherry juice. Pour tea over ice. Stir in cherry mixture and add gingerale. Makes 2 quarts.

SUNDAY DINNER Suggestions

By ANN PAGE

GRAPES are in full season, including native Concord and slipskin varieties and the California eating grapes such as Thompson seedless, Tokays, Malagas and Riblers. Apples, cranberries and grapefruit are also helping replace the summer fruits.

Iceberg lettuce is again cheap. Tomatoes, onions, peppers and eggplants are available. Both white and sweet are low in cost.

Ducklings and lamb are the best buys in the meat line though pork is a little lower. Both beef and veal prices have risen. Eggs and butter are showing the usual fall increases in price but are still reasonable.

Seasonable foods make up the following menus.

Low Cost Dinner
Pork Chops Sweet Potatoes
Creamed Cabbage
Bread and Butter
Apple Tapioca Pudding
Tea or Coffee Milk

Medium Cost Dinner
Baked Ham with Apple Rings
Mashed Potatoes Green Beans
Bread and Butter
Floating Island
Tea or Coffee Milk

Very Special Dinner
Grape and Grapefruit Cup
Roast Duck with Apple and Onion
Braised Sweet Potatoes
Brussels Sprouts
Combination Salad
Bread and Butter
Coffee Ice Cream
Coffee Wafers

Dining in Open a Treat for All When Menu is Properly Arranged

(Illustration by Hermann Schlimmer, N. Y.)

A repast of cold cuts, a mixed green salad, an assortment of cheeses with beer to top it off as the beverage of health and moderation, is the perfect answer to a Summer Night's supper, particularly with table settings as smart and inviting as those shown.

IN the Summer when sultry days dull the appetite, hot kitchens put housewives' nerves on edge and even the dining room feels stuffy, the good old lawn often furnishes a comfortable refuge and solves the mealtime problem as well. That's where home dwellers have it over apartment residents... and if the home dwellers happen to have appropriate garden furniture for al fresco dining, that's an extra stroke of luck.

Outdoor dining calls for simple menus, easily prepared and readily served. A platter of cold cuts is ideal, for instance, along with potato salad, an assortment of cheeses, a few pickles and olives and a few radishes thrown in for good measure.

Beer is the perfect beverage for

informal dining. In bottle or can, it can be easily stored and chilled to your refrigerator and it requires no preparation in serving. Cooling and nutritious, it blends perfectly with every item on the menu.

For a quick supper or a midnight buffet out on the porch after the last rubber of bridge has been played, why not try ripe tomatoes with shallot French dressing, cold sliced ham, fresh, crunchy rolls, light potato salad and fresh pineapple sticks? Again beer is your appropriate beverage.

Another out-of-doors menu calls for a cold meat platter of liverwurst, salami and summer sausage, together with a combination egg and potato salad and the usual olives, pickles and celery, all more fully enjoyed with a glass of foam-crested beer.

Keep your temper—nobody else wants it.

Love creates blindness; marriage cures it.

New Beer Cake Is Spice of Any Menu

If variety is the spice of life, beer spice cake is bound to be a distinctive feature of any meal it is chosen to grace. This novel version of age-old beer cookery made its public debut at The Waldorf-Astoria in New York recently and was unanimously approved by the connoisseurs who tasted it.

Simple to prepare, nutritious in composition and delicious to taste, this cake is designed to serve as the perfect dessert for those who prefer lightness and spiciness to sheer sweetness. Beer, refreshing beverage of moderation, is one of the ingredients giving it the "different" taste.

The recipe is taken from the new booklet, "It's Smart to Serve Beer,"

by Mrs. Helen Walts Schreiber, nationally known home economist and food expert.

Beer Spice Cake
1 cup brown sugar 1 teaspoon baking
1 egg 1/2 cup chopped nuts 1/4 teaspoon soda
1 cup chopped dates 1/4 teaspoon salt
1 cup beer 1 teaspoon cinnamon
1/2 cup shortening 1 teaspoon allspice
1/2 cup flour

Cream shortening. Add brown sugar and egg unbeaten. Sift all dry ingredients together and add dates and nut meats to this. Add alternately with beer to creamed shortening and sugar. Bake in loaf pan (375° F.) thirty minutes. This recipe is also delicious baked as tea cakes and covered with mocha icing.

Most Fantastic Highway
The Tyn-Ardal road in Norway, often called the most fantastic highway in Europe, is 28 miles long and drops 3,500 feet in a series of 43 hairpin bends.

Noisy Speakers
"Some o' dese big speakers," said Uncle Eben, "is like de whistle on a locomotive. Dey uses up steam to make a big 'sturbance.' But dey ain' pushin' nuffin' along."

Banana's History Is Old**Came From Southern Asia**

Among the accounts of man's endeavors on this earth, the discovery and development of important foods stand out. The history of the banana can be traced back until before the beginning of history.

The yellow fruit is thought to have developed first in the humid tropical regions of Southern Asia. From there it moved slowly westward.

Alexander the Great found the fruit along the Indus three centuries before Christ. The Arabs carried it to the Holy Land, to northern Egypt, and perhaps also across the Dark continent to the west coast, according to the Union Oil Bulletin. When the Portuguese arrived on the Guinea coast, looking for slaves and gold, about ten years before Columbus sailed for the "Indies," they found the banana, liked it, and carried it to the Canary Islands. From there, probably in the year 1516, it went to the New World.

The banana first appeared in the United States early in the Nineteenth century. The few people who bit into the odd-shaped fruit were inclined to say, with Benjamin Disraeli, "the most delicious thing in the world is a banana."

"Switzerland of America"

The sobriquet, "Switzerland of America," is applied to several of the states, Colorado, for one, because of its magnificent natural beauty. Maine is another state called the Switzerland of America. Its mountainous scenery and abundant snowfalls doubtless gave rise to this nickname. It is also applied to New Hampshire, New Jersey and West Virginia. It is applied to New Hampshire in recognition of that state's beautiful mountain scenery; to New Jersey because of its mountain scenery in the northwestern part of the state, occasioned by the Kittatinny range of mountains and by the ranges of the Watchung, Sourland and the Pickle mountains of the southeast; and to West Virginia from the picturesqueness of the mountain scenery.

Fifteen to a Bed

Fifteen guests could climb up to sleep in a community guest bed in one of the old Norwegian houses preserved in the famous open-air museum at Lillehammer, says Sydney A. Clark. If there were one or two more than fifteen, he writes, the host and hostess would take the extras into their own bed.

FARM TOPICS**PRICE-FIXING IS EASY FOR LAYERS****Hens Kind to Set Cost by the Kind of Eggs Laid.**

By Prof. H. E. Rolsford, Cornell Agricultural Extension Division—WNU Service.

Price-fixing may be a moot point in some lines, but to the farmyard hen it comes easy. She helps to fix prices of eggs without giving the matter a second thought.

Depending on the particular breeding hen used, a difference of several cents a dozen may be received for eggs. Size and shape of eggs are important market characters, but each must be bred for separately, as size is not related to the shape of an egg.

A 24 to 27-ounce egg is a money-maker, and pullet flocks should be laying more than 50 per cent eggs of this weight after three months.

Color of the shell is also listed as possessing a money value as market men frown on tinted shells that are supposed to be white. Some markets prefer brown-shelled eggs.

All in all, it is largely a question of quality. We have not learned how to improve the quality of an egg once it is laid. The only way, therefore, to ship fine quality eggs to market is to have birds capable of producing these eggs, and then to handle the eggs properly to retain this quality.

Since certain hens have the natural ability to produce high quality eggs while other hens lay eggs of poorer inside quality, the pedigree breeder of the future may need to know not only the number of eggs and the outside quality, but also the inside quality of the eggs produced.

The poultryman has to have a flock that lays the right kind of eggs, for the breeding hen is a price-fixer.

Cows Cover Many Acres on the Average Pasture

Three to three and one-half acres of good pasture will furnish plenty of forage for a cow or seven mature sheep through the pasture season, but a dairy cow has to harvest the grass from a sixth of an acre a day on the average pasture, according to D. R. Dodd, extension agronomist, Ohio State university.

As cows are not trained to cut clean swaths, the animal really will travel over many acres each day.

The average pasture yields only three tons of green grass per acre each year, and a cow which produces 25 to 35 pounds of milk a day needs 250 pounds of grass each day to supply the needed total digestible nutrients to maintain her body weight and milk production.

Even if the cow travels fast enough to get sufficient forage, the 250 pounds of grass would lack needed protein and minerals.

The university agronomist is not just calling attention to a hopeless situation. He maintains that a system of pasture improvement through the use of lime fertilizer, and good grass mixtures will correct the present deficiencies of pasture on adapted soil. He also says that good pastures produce milk and meat at a low cost.

The Dugout or "Root Cellar"

The dugout or "root cellar" is both cheap and efficient, says A. G. Tolans, horticulturist, University farm, St. Paul. If available, a side hill location is best because of better drainage and because the entrance can be made on the ground level. Such a storage place should be dug about 8 feet deep and as wide and long as desired; a cellar 20 by 40 feet will store 4,000 bushels without piling too deep. When the side hill excavation has been made, rough timber or poles can be set endways around two sides and the rear end on a concrete footing about a foot wide by 18 inches. Poles can also be used for the roof, laid close enough to permit covering the entire room with a layer of straw. Dirt from the cellar can be used for banking and covering the roof.

Lists Weed Damage

Six ways in which weeds cause farmers to lose several million dollars each year have been listed by J. J. Pieper, chief in crop production at the college of agriculture of the University of Illinois. Reduction in crop yields, increase in expense of growing the crop, decline in quality of the product, reduction in the value of the land, poisoning of live stock and ill effects on public health are the six points listed by Pieper.

Meat of the Turkey

It is characteristic for all turkeys to have the two layers of white meat on the breast. Certain strains are developed that yield a larger percentage of white meat than others, and management conditions have an influence upon the percentage of breast meat. Birds raised under semiconfined conditions and where the weather is cool yield a larger percentage of white meat than range birds raised under different conditions.

Elephants Hold Record; May Live to 200 Years

According to accredited data, the following figures may be regarded as reliable on the life span of animals:

Elephant, 150 to 200 years; falcon, 162; vulture, 118; golden eagle, 104; swan, 102; goose, elder duck, raven, parrot, tortoise (especially the giant tortoise), 200 to 300; carp and pike 150 years; horse, ass, donkey and bear, 40 to 50; crane, 40 to 50; heron, 60; owl, 08; dove, ostrich and woodpecker, 00 to 70; hippopotamus, 40; rhinoceros, 40 to 50; the gull, 44; the cuckoo, crocodile and toad, 40; sheep, 10 to 15; goat, 12 to 15; stag, 30; roebuck, 15; reindeer, 18; elk, 20; wild pig, 20 to 30; dog and wolf, 10 to 15; fox, 10; lion, 20 to 25; tiger, 20; cat, 9 to 10; beaver, 20 to 25; squirrel, 10 to 12; hare, 7 to 8; guinea pig, 5 to 7; rat, 3; mouse, 3 to 4; domestic fowls, 15 to 20; magpie, 25; black bird, 18; canary, 24; salamander, 10 to 12; tree-frog, 10; fresh-water eel, 10 to 12.

Certain of the humbler forms of life live astonishingly long. These include the fresh-water pearl-mussel, 60 to 70, and fresh-water crabs and leeches, over 20. The angle-worm may live over 10 years. Insects and spiders have short lives as a rule, but some kinds of ants have lived in captivity for 10 to 15 years.

Queen bees, though engaged in constant production of eggs to create communities of descendants, live from 4 to 5 years, whereas the little workers end their activities in about six weeks. — Indianapolis News.

Humming Birds Adorned With Moustache, Crest

If you were told that humming birds had moustaches, would you believe it? Yet that is true of some species. If told that they were pug-nose, would you still be skeptical? This also is true. These little birds, smallest of the feathered tribe, have many interesting peculiarities, observes a writer in Tit-Bits Magazine.

Hawks and crows often fly ignominiously before the onslaughts of these little creatures, and either sex will attack any bird that offends them or comes near their nest. Humming birds in many species have moustaches, chin pendents, fanciful crests upon the head, puffs on the legs and other adornments, which they display with delight and vanity when courting the plainer female.

There are approximately 500 species of humming birds and they are confined almost entirely to North and South America. Humming birds have tiny, light bodies, remarkably powerful wing muscles, long, narrow wings, and very short wing bones. This gives them speed at the expense of power and enables them to poise in mid-air before flowers while they catch insects that feed on the nectar, and to dart through the air so rapidly that they often elude the eye.

Their bill is frequently twice as long as their head. This enables them to delve deep into the recesses of the flowers they frequent.

The Helena humming bird of Cuba is believed to be the smallest bird in the world. It was discovered by Dr. Juan Gundlach in 1850.

Memory Stimulated by Music. Many forms of memory are stimulated by music, according to a writer in Pearson's London Weekly. A certain air may call up a scene we thought we had forgotten. Or it may bring some person vividly to our mind. Certain strains of music have been known to awaken memory in people who were suffering from mental trouble. In the East there are healers who work with sound while using massage to stimulate the nerves. They know that everything has its rate of vibration, and if they can find the patient's vibratory response they can cure his nerves.

Popular Perfume Center In Grasse, France, popular perfume center, 2,000,000 pounds of perfumed flowers are collected each season to keep the industry going. The flowers grow lavishly along the Cote d'Azur and on the mountainsides.

Antioch Aces Close Season With Victory Over Silver Lake, 9-6

The Antioch Aces closed their season last Sunday afternoon at Silver Lake when they defeated the Lakers, 9 to 6, in a ninth inning rally that netted four runs. Silver Lake was leading 6 to 5 when the Aces came to bat in the last frame. After Schmieder struck out, Bown beat out an infield hit, Crandall singled and Lasco singled, loading the bases. Hughes struck out and Lewin singled bringing in two runs. Kochin then tagged one of Loth's fast balls for three bases, scoring two more markers for the Aces. Wells struck out ending the scoring for the day, for Kochin retired the Silver Lake crew in order in the last half.

The Aces have had an unusually successful season, winning 75 per cent of the games played.

Box Score

Antioch Aces (9)	AB	R	H
Crandall, ss	4	2	3

The Vitamin Alphabet
Housewives who find it hard to learn the vitamin alphabet may be helped by the following simple government explanation: Vitamin A is said to prevent an eye defect; vitamin B, beriberi; vitamin C, scurvy; vitamin D, rickets; vitamin E, pellagra. The nutritionists say that the American diet is commonly lacking in iron, foods rich in iron are liver, meats, eggs, and green leafy vegetables. Recent government analyses revealed that next to liver, the oyster is the best natural source of iron and copper.

Origin of Word "Bunk"
The member for the Buncombe district in the congressional discussion of the Missouri Compromise (1820) persisted in long speeches despite the boredom and impatience of his fellow members. The incident is reputed to be the origin of the name as well as the words bunkum and bunk.
